AYUSH CHATTERJEE

MBA Candidate (IT & International Business) | Technical Product Management & Business Analytics

ayushchatterjee.edu@gmail.com | +91 7003477336 | www.linkedin.com/in/ayushmba | ayushchatterjee.me

PROFESSIONAL SUMMARY

IT-focused **MBA Candidate (Class of 2027)** with 2+ years of multi-industry experience across consumer tech software (**OnePlus OxygenOS**), e-commerce systems, and data analytics. Combines technical systems rigor with product strategy: experienced in drafting **PRDs**, executing **product roadmaps**, defining user stories, managing **Jira** backlogs, and analyzing real-time **telemetry**. Proven record of managing software regression testing across **15+ OS builds**, **reducing critical software defects by 22%**, and building automated MIS dashboards that cut reporting cycles by **35%**.

EDUCATION

Master of Business Administration (MBA) - IT & International Business | Regional College of Management (Bhubaneswar, India) **Oct 2025 - Jun 2027**

Cumulative SGPA: 7.93 / 10.0 | Key Focus: IT Systems, Business Analytics, Product Management, Enterprise Applications

Bachelor of Business Administration (BBA) | Regional College of Management (Bhubaneswar, India) **Sep 2022 - Jun 2025**

Cumulative SGPA: 8.22 / 10.0 | Graduated First Class with Distinction

PROFESSIONAL EXPERIENCE

Digital Strategy & Web Analytics Intern | Swash Consulting Limited (Bhubaneswar, India) **Jun 2026 - Jul 2026**

- Formulated on-page content architecture, **keyword strategy**, and user acquisition funnels, driving a **15% increase in organic search traffic** and user engagement.
- Integrated **AI-assisted content workflows** into marketing operations, developing quality assurance checklists that **shortened publishing cycle times by 30%**.
- Conducted **competitive benchmarking** and **search telemetry audits** across high-intent queries to discover organic visibility opportunities.

Product Quality & Digital Platform Contributor | Innovist (Bare Anatomy & Chemist at Play) (Bhubaneswar, India) **Apr 2024 - Dec 2025**

- Coordinated **9 SKU product release cycles**, leading pre-release product quality testing, packaging validation, and **digital storefront launch readiness**.
- Evaluated 5 D2C digital storefronts, conducting **user research** to map customer friction points and analyzing repeat-purchase retention trends to resolve a **17% retention deficit**.
- Monitored **e-commerce funnel metrics** and checkout drop-off rates across product variants, collaborating with developers to streamline digital conversion paths.

Business Systems & Analytics Intern | D-Dzire Jewels (Bhubaneswar, India) **May 2025 - Oct 2025**

- Initiated **automated KPI tracking platform** and **MIS dashboards**, cutting weekly reporting cycles by **35%** and eliminating data discrepancies across 8 multi-store databases.
- Quantified **SKU inventory velocity** and product performance analytics, identifying 18% slow-moving inventory to optimize stock allocation and **cut excess holding by 12%**.
- Synthesized unit retail performance metrics (**Conversion Rate, AOV, Gross Margin %**) to deliver weekly operational insights to management.

Quality Assurance Specialist (OxygenOS / Audio Telemetry) | OnePlus Technology Co., Ltd. (Bhubaneswar, India) **Sep 2023 - Apr 2025**

- Governed software regression cycles across **15+ pre-release OxygenOS builds** on flagship hardware, **reducing critical software defect recurrence by 22%**.
- Authored **120+ structured bug reports** and feature test specs in **Jira** detailing reproduction steps, logs, and telemetry indicators, accelerating developer resolution timelines by **15%**.
- Partnered with cross-functional software engineering and product teams to prioritize high-severity bug backlogs and acceptance criteria ahead of regional **OTA rollouts**.
- Analyzed **system telemetry** and Bluetooth audio crash logs across **10+ hardware configurations** to maintain firmware release stability.

SELECTED PROJECTS

- **Real-Time Telemetry Platform (React, APIs, Webhooks):** Architected single-page application with real-time visitor event **telemetry** using **REST APIs** and **Telegram webhooks**; engineered honeypot fraud filtering that **reduced bot traffic by 25%** and improved data fidelity by **10%**.

SKILLS & COMPETENCIES

- **Technical Product Management: Product Roadmap**, **PRD Drafting**, User Research, User Stories & Acceptance Criteria, Backlog Grooming, **Jira**, Confluence, **Figma**, **Agile/Scrum**, **A/B Testing**, Feature Prioritization, MVP Scoping, **System Telemetry**.
- **Data & IT Analytics: SQL**, **Python**, **Power BI**, **Tableau**, **Advanced Excel** (Modeling, DAX), **REST APIs**, **Webhooks**, Telegram Bot APIs, MIS Dashboards, Demand Forecasting, Forecast Accuracy, Regression Analysis, Core Metrics.
- **IT Systems & Cloud: Cloud Architecture** (AWS APAC Simulation), **Generative AI & Prompt Engineering** (IBM), **System Regression Testing**, Defect Lifecycle Governance, E-Commerce Platform Analytics.

CERTIFICATIONS

- **McKinsey Forward Program -** McKinsey & Company (Leadership, digital business, and strategy accelerator).
- **Generative AI: Prompt Engineering -** IBM (Foundational and advanced prompt patterns, LLM evaluation, and prompt optimization).
- **IBM Product Manager & Microsoft AI Product Manager -** Professional Certificates in software lifecycle, user personas, PRD drafting, and AI product roadmaps.
- **AWS APAC Solutions Architecture Simulation -** Forage (Architecting resilient, distributed cloud environments, IAM governance, and cost optimization).
